Stay up to date on the ever-changing e-invoicing market! As a worldwide leader in AI-driven process automation solutions, Esker helps your business stay compliant.

COUNTRY UPDATES

EUROPE

CROATIA — As of July 2019, B2G e-invoicing is mandatory through The Financial Agency's (FINA) platform, which is a PEPPOL Access Point. It is also possible to send and receive B2B e-invoices, as FINA owns two platforms, one for businesses and one for public authorities. Learn more

ESTONIA — As of July 2019, B2G e-invoicing in Estonia is mandatory with many public administrations available via PEPPOL. Learn more

FRANCE — B2B e-invoicing is expected to be mandatory in the coming years.

GREECE — The newly elected Greek government decided to focus its efforts on e-reporting and bookkeeping. E-invoicing is still of interest, but no mandate will be applicable in 2020. Learn more

ITALY — Following e-invoicing mandates, companies supplying the National Health Services (SSN) will be obligated to manage the reception of orders in electronic format through the NSO platform. However, the deadline has been postponed to February 1st 2020 for goods and service orders.

LITHUANIA — Lithuania made B2G e-invoicing mandatory in July 2017. Although the PEPPOL standard has been adopted and the previously used national XML format is still accepted. Learn more

SPAIN — B2B e-invoicing is expected to be mandatory in the coming years.

ASIA

INDIA — India is moving to the clearance model, but on a voluntary basis in January, 2020. No mandate for the moment but it is expected in the coming years. Learn more

PHILIPPINES — Besides several e-government and digitization projects, the Philippines have partnered with South Korea to develop an e-invoicing program. The program is still in its early stage and is targeted for completion by December 2022. (Billentis)
